Dove l'Arte Incontra il Tessuto

Questo progetto nasce dalla collaborazione tra la classe 5ª Design del Liceo Artistico Bruno Cassinari e SITAP. L'iniziativa unisce la creatività degli studenti al know-how tessile dell'azienda.

Partendo da bozzetti e studi cromatici realizzati in classe, i progetti sono stati sviluppati e adattati alle tecniche di produzione con il supporto del direttore creativo Barbara Trombatore, diventando motivi per tappeti.

Una collaborazione tra scuola e impresa in cui arte, progettazione e tradizione tessile prendono forma in una nuova collezione.

Where Art Meets Textile

This project was born from the collaboration between the 5th Design class of the Bruno Cassinari Art High School and SITAP. The initiative brings together the creativity of students with the company's textile know-how. Starting from sketches and color studies developed in the classroom, the projects were further refined and adapted to production techniques with the support of creative director Barbara Trombatore, becoming designs for rugs.

A collaboration between school and industry where art, design, and textile tradition come together to shape a new collection.

Là où l'Art Rencontre le Textile

Ce projet est né de la collaboration entre la classe de 5 Design du Lycée Artistique Bruno Cassinari et SITAP. L'initiative réunit la créativité des étudiants et le savoir-faire textile de l'entreprise. À partir de croquis et d'études chromatiques réalisés en classe, les projets ont été développés et adaptés aux techniques de production avec le soutien de la directrice artistique Barbara Trombatore, devenant ainsi des motifs destinés à des tapis.

Une collaboration entre école et entreprise où l'art, la conception et la tradition textile prennent forme dans une nouvelle collection.
